Note: Fish, Reptiles, Pet Poultry, Pet Livestock were omitted from this figure to align with FEMA definition. Data at 12/31/16.

[6] FEMA policies use the following controlling definition: "Household Pet" means [a] domesticated animal, such as a dog, cat, bird, rabbit, rodent, or turtle that is traditionally kept in the home for pleasure rather than for commercial purposes, can travel in commercial carriers, and be housed in temporary facilities. Household pets do not include reptiles (except turtles), amphibians, fish, insects/arachnids, farm animals (including horses), and animals kept for racing purposes. Note that turtle data is not distinguishable in the AVMA data from othe reptiles and therefore not included in these figures.
